

Combined Emission Analyser CCP700 Range

The Crypton 700 series of emission analysers are VOSA approved for MOT testing. The CCP700 series is an integrated gas and smoke analyser combining state of the art digital technology. The unit comes complete with oil temperature probe, battery RPM measurement (petrol & diesel), remote control mouse, A4 printer, 19" flat screen monitor, black keyboard and remote control. All housed in a high quality roll-around cabinet.

Standard Features

VOSA Approved for classes III, IV, V & VII UK MOT test

Gas Analyser is accurate to OIML Class 0

Complies to latest VOSA Regulations including BET's test

Automatic calibration on smoke head

Battery Tachometer

Remote Mouse

19" Flat Screen Monitor

Laser Printer

Temperature Probe

3 Year on-site Parts and Labour Warranty (UK only)

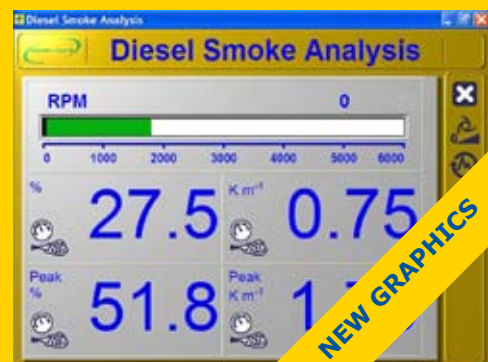

Updating is easy - the annual VOSA petrol vehicle update and any changes to the program procedure/test limits can be done simply by loading a disk, no service visit is necessary.
